

Production Cell Technician

Custom Castings is looking for Production Cell Technicians who are responsible and dependable to join our various production cells.

The successful candidate will be responsible for the following:

- Participate in huddles.
- Build castings according to the production schedule and standards.
- Complete Total Productive Maintenance as scheduled or assigned.
- Work with other Cell Technicians, Cell Leaders, and supports to drive continuous improvement in the cell.
- Work as a team with other Cell Technicians and Cell Leaders to complete work tasks and meet key performance indicators (KPI) targets and delivery commitments.
- Complete assigned 5S duties to ensure the cleanliness, availability of tools and organization of the cell.

The ideal candidate will possess the following:

- The ability to follow procedures and willingness to learn new skills.
- Proficiency in the use of measuring instruments.
- Physically capable to lift up to 50 lbs.
- Excellent communication (verbal & written) English skills.
- Strong sense of teamwork within groups and across organization.
- Must be flexible with working overtime.
- Previous exposure to a lean environment is an asset.

Our Staff enjoy many benefits including:

- Competitive Salary
- Full benefits package including pension program
- Comprehensive training program
- Off-Shift Premiums

We thank all applicants in advance for their interest in this position, however, only those selected for an interview will be contacted.
